System Accessories

A02 200

Power Supply Type / 02

Specifications

- Easy to use (Plug and Play)
- Non-sterile and not autoclavable.

Technical Details

Input: 200-240 V ~ 1.6 A

Frequency: 50-60 Hz

Output: 15V DC 22 A

Fuse Rating: 5 A 250 V

A03 300

Corded Module Type / 03

Specifications

- Total length is 3 mt and sterilizable cable.

A05 100

Sterilization Container / Type / 01

Specifications

- Produced by stainless steel material
- Product placement is determined by laser marking on the trays.
- Sterile Conditions : 134°C (+ 4°C / - 0°C)

Surgical Saw Blades

Ceramic polished teeth guarantee effortless precision cuts.

- Acf provides high quality oscillating saw blades with different width, length and sizes for orthopedic surgeries.
- Dimensions to fit all popular knee cutting guides.
- Blades are produced compatible with all brand power tools in the world.
- Over 700 different type saw blades are available from stock.
- Blades are prevented to overheating of blade and minimized possibility of thermal necrosis.
- Oscillating tip design dramatically reduces vibration and enhances hand piece control.
- Variable speed control allow the surgeon to shape bone in preparation for implants.
- Non oscillating blade shaft reduces the potential for soft tissue damage.
- Packaged individually and CE marked.
- Sterile and Non-Sterile Versions.

API

Acf Product Insurance

First time in the world, **user errors** are covered
by the guarantee

The API system provides you a free technical service during your first year,
regardless of the malfunction.

Your power tools will be sent to you in maximum 48 hours!

Acf Medical set out with the mission of being a global brand by creating difference in orthopedic and traumatology field with international quality standards production and service approach, and today Acf Medical achieved this aim by becoming one of the world giants.

Be in more countries in the world with local production as equivalent quality of world giant, supply country's need without need for import products and thereby contributing to the country's economy, produce products that is called 'Can not Be Done' as successfully and most importantly is that ease the burden carried by doctors in surgeries are most important goals of Acf Medical.

ACF; benefits from scientific and technological innovations in production that performed by experienced team; continues its projects without compromising ethical principles.

Design of R & D engineers combined American Motor Technology and Japan Lion Battery technology and supplied products are solved all the problems as seriously in the sector.

Traceability of products are followed by special IT Programme, only European origin raw material are used for surgical saw blades. Blades have got special aggressive tooth structure.

Besides all of them R&D engineer team improve the quality of products constantly by studying as commitment and enthusiasm in accordance to ideas of doctors who real product's owner.

ACF, makes direct domestic sales for all Turkish market from central factory in Manisa.

Acf makes international sales in Germany, Italy, Spain, Colombia, Brasil, Lithuania, Peru, Serbia, Kazakhstan, Azerbaijan, Palestine, Iraq, Indonesia and Yemen as Authorizes Distributors and also;

Performs with expert sales team mainly in Poland, Ecuador, Seychelles, Singapore, Malaysia, Mexico, Morocco, Tunisia, Syria, Georgia, Sri Lanka and Swaziland more than 20 countries.
